

## Flow Software Ltd - Position Brief

**Position:** Senior Technical Consultant

**Location:** Albany, Auckland.

---

### Position Overview:

Flow Software has a young, positive, supportive environment with a blend of international ethnic and cultural diverse individuals. We pride ourselves on teamwork and sound principles; we are innovative and creative and recognise achievements on a monthly and quarterly basis. As a rapidly growing NZ software company, we encourage innovative and entrepreneurial thinking and support core values and integrity.

The role of Senior Technical Consultant is a position which comes with very specific expectations. We are looking for an individual with the following attributes:

- ✔ Exceptional technical knowledge of Windows computers and applications
- ✔ An ability to quickly see, understand and design a business process
- ✔ Experience with system analysis and design
- ✔ A logical thinker and problem solver
- ✔ A “do it yourself” attitude when others may have relied on software developers

The role plays an important part in reinforcing Flow’s reputation as leader in system integration and EDI. Flow is delivered in many diverse operating environments and therefore the Senior Technical Consultant must have a practical and logical approach to solving problems, and ability to resolve technical problems not directly related to our software

Given the nature of Flow’s customers (domestic & international) and the importance of the development team, it is necessary, in addition to delivering and managing special integration & EDI projects, that the Senior Technical Consultant also be able to own technical issues (and high value customer sites) escalated from the professional services team.

Pivotal to the role is accountability and following through on best practice solutions to problems.

Applicants should apply in writing with a CV and a cover letter via email to: [aaron.cowley@flowsoftware.co.nz](mailto:aaron.cowley@flowsoftware.co.nz)
